Profile of Canadian Companies

CAE Healthcare (Quebec): CAE Healthcare, Inc., a wholly owned subsidiary of the Montreal-based CAE Inc., is a global medical simulation and training company with a mission to improve healthcare education and patient safety. We design and build products for patient simulation, surgical simulation, ultrasound simulation and clinical simulation management. Our global adjunct faculty and clinicians develop evidence-based medical simulation scenarios for medicine, nursing, health sciences, hospital systems and the military.

Cognistat (Quebec): Cognistat Assessment System is a web-based neurobehavioral screening test. It is a test that examines neurological (brain and central nervous system) health in relation to a person's behavior. Cognistat Assessment System now offers clinicians a rapid, computer-assisted means of assessing a patient's level of cognitive functioning. CAS delivers a highly individualized graphic profile of a patient's unique set of cognitive strengths and weaknesses that is invaluable to clinicians, patients, family members and everyone involved in a patient's care or rehabilitation.

Globyz Pharma (Ontario): Globyz Pharma specializes in sourcing and supplying reference drugs, comparators and ancillary supplies for drug development, Bio-equivalency studies and clinical trials. We have access to drugs that are under REMs or restricted distribution including controlled substance. Globyz Biopharma Services specializes in clinical trial materials logistics management. We offer importation, storage, packaging/labelling, distribution/transportation of time critical and temperature sensitive clinical trial materials from our GMP compliant depots in Canada, USA, UK, India and Singapore.

Novatek International (Quebec): Novatek International's mission is to produce regulatory compliant software solutions to the pharmaceutical, biotech and other health-care industries. Its goal is to improve patient safety by producing solutions that reduce the risks associated with pharmaceutical manufacturing and contribute to product quality.

Nutritionwize Consulting Inc (Ontario): Nutritionwize is a Nutritional Service Consulting Company, a dedicated team of Registered Dietitians committed to working with patients and clients to achieve their personal nutritional goals. They provide the following services - Dietitian Services, Label creation, Menu and Nutrient Analysis, Gene Testing, Nutrition Counselling on various diseases among others.

OpenText (Ontario): OpenText is the leader in Enterprise Information Management (EIM). Our EIM products enable businesses to grow faster, lower operational costs, and reduce information governance and security risks by improving business insight, impact and process speed.

Optel Group (Quebec): OPTEL is a multinational, leading global provider of traceability systems practicing responsible human capitalism. The company's mission is to use its innovative technologies to help create a better world. Namely, its renowned solutions ensure the quality of consumer health products and help stop counterfeiting of pharmaceuticals and medical devices throughout the world.

Pack-Smart Inc (Ontario): Pack-Smart designs and manufactures world's top performance industrial automation technology and provides full support services for its customers in various industries since 1998. Pack-Smart is head quartered in Toronto, Canada and operates in 25 countries, having fully owned subsidiaries in Mumbai and Singapore. The company is the industry leader for complex and high-speed packaging solutions, continuously seeking to set higher standards, increase ROI for its clients, and develop strategies that satisfy immediate needs while enabling future growth.

Planbox (Quebec): Planbox is the pioneering provider of cloud-based AI-powered Agile Work Innovation software solutions. Our mission is to help organizations thrive by transforming the culture of agile work, continuous innovation and creativity across the entire organization. Our family of products include Collaborative Innovation Management and Work Management applications. Planbox is designed to be the crowdsourcing and idea management tool for everyone, built for companies and teams of all sizes and trusted by some of the world's most recognized brands including Bridgestone, CGI, Nestlé, Sempra Energy, Starbucks, Stanford, Philips, The Salvation Army and Verizon with millions of internal and external users.

True Phantom Solutions (Ontario): True Phantom Solutions Inc. is a multinational biomedical company that manufactures anatomically correct human body parts that are also known as phantoms. These phantoms or medical simulators are highly realistic and lifelike human models that can be used to carry out scientific research & development and medical training. Compatibility with ultrasound, MRI, CT, and X-Ray makes our product unique and valuable.
