HUMAN ERROR REDUCTION

Awareness and Training Program

For Pharma/BioPharma industry professionals working in
R&D, Production, WH, QC, QA, Engineering, etc.

Venue

Marigold Hotel

7-1-25, Ameerpet Rd, Leelanagar,
Begumpet, Hyderabad, Telangana 500016

In Collaboration with

Trainer

Bedadyuti
Chakraborty

About Us

The **Federation of Pharma Entrepreneurs (FOPE)** stands as a support for India's pharmaceutical entrepreneurs, particularly those operating small and medium-sized businesses. The primary mission is to champion the needs of this sector by actively engaging with policymakers.

FOPE strives to influence decisions that impact the industry and address common challenges faced. Furthermore, the organization fosters collaboration with educational institutions, aiming to elevate the skillset of the entire pharmaceutical workforce.

About Us

The **Federation of Asian Biotech Associations (FABA)**, founded in 2004, is a non-profit organization headquartered in Hyderabad, India. FABA unites 22 Asian countries with a shared interest in advancing biotechnology for human health.

They serve as a platform for these nations to discuss issues like technology transfer, resource sharing, and business collaborations. FABA also runs FABA Academy and FABA Entrepreneurship, which provide training and resources for students and startups in the life sciences field.

Key Contents

- **Human Errors: What and Why**
- *Notable Examples of Human Errors: Cost and Consequence*
- **Is it "Human Error" or "Poor System"?**
- *Ensuring Poka-Yoke ("Fool-Proof" System) to Reduce Human Errors*
- **Data Integrity and Human Errors: 483s and Warning Letters**
- *Discussion on 10+ Representative Case Studies*
- **Various Error Traps**
- *Regulatory Expectations for Tackling Human Errors*
- **Memory Retention and High Alertness**
- *10+ Powerful Tips to Reduce Human Errors and the Way Forward*
- **Human Error Reduction: Sustainable Action Plan and Measurement Matrix**

About the Trainer

Bedadyuti Chakraborty, Currently Director of RxCella (A Pharma & Biopharma Learning Academy) is having 26 years of Industrial experience in Pharma/Biopharma R&D, Production, Quality & Training. He started his industrial career with Wockhardt & was part of the recombinant "Erythropoietin" (EPOX) development & launch team. In 2002, he joined Biologics Division of Dr. Reddy's as R&D scientist for anti-cancer drug development program.

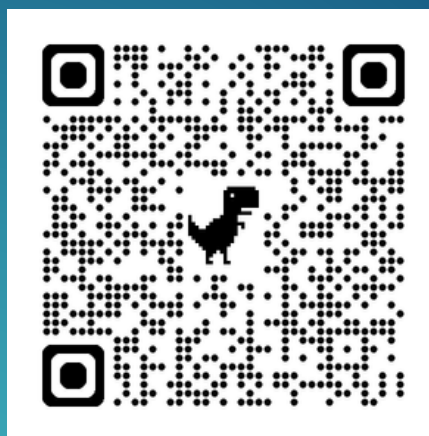

Mr. Bedadyuti Chakraborty

Later, he worked & led GMP Quality Management System (QMS) Assurance, Product Release QA & Training functions. He also worked for Global Technical Training Organization (TTO) of Dr. Reddy's. His moment of pride at Dr. Reddy's was when the team launched Reditux (first biosimilar Rituximab of the world) in 2007, still saving millions of lives in the world. He fetched several accolades at Dr. Reddy's for outstanding contributions in the area of QA, Employee Capability Building & Training. That's probably the IKIGAI of Bedadyuti too, now pursuing his passion to serve Industry (for existing learning needs) & Academic Institutes (bridging gaps between Academia & Industry).

Currently, he is engaged as the Learning Partner for various leading Pharma & Biopharma companies like Dr. Reddy's, Serum Institute of India, Biological E, Mankind Pharma, Aizant, Alkem, Tentamus, CuraTeQ, Piramal, Orbicular, Jerusalem Pharma, Sai Life Sciences, Daicel, Syngene International & more. He is consistently rated above 9 (out of 10) by trainees wrt knowledge, content development & training skill. Bedadyuti was "Best All Round Graduate" & "Best All Round Post-Graduate" medal holder of Jadavpur University. His first book "Biotechnologir Kandokarkhana" (Wow Biotechnology!) was honoured with "Satyendra Puraskar" by the Govt. of West Bengal as the Best Science Book of the year. He is guest faculty of Jadavpur University (Kolkata) & NIPER (Hyderabad) & delivered lectures at various academic Institutes like IITS, NITS, AIIMS, IISER etc aiming to bridge the gap between Academia & Industry. Sky-watching (owning a telescope) is one of his close- to-heart hobbies!

REGISTRATION

Register by scanning the QR code or by tapping on it, which will redirect you to the registration form and payment portal.

Scan / tap on the QR
for registration
