Good Governance Policy

National Health Policy

- Free and access to medicines and safe and quality health services for all Nicaraguans from the most distant to the closest community.
- Selection, acquisition, distribution, prescription and dispensing of generic drugs, according to the national list of essential drugs, 2023

Good Governance Policy

Generic Medicines

The generic drug must be:
Safe, quality, effective.

- They play an essential role in the treatment of diseases, which allows guaranteeing access and availability
- Sustainability in procurement is vital to ensure the greatest benefit of essential medicines to all patients, taking into account affordable prices.

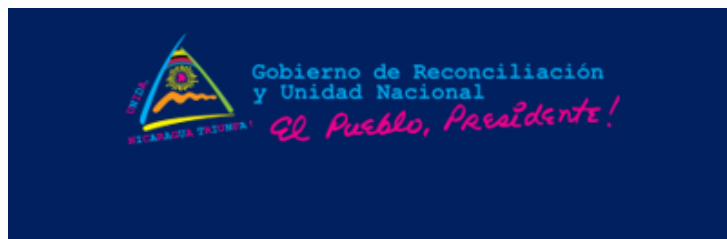

Good Governance Policy

Quality Generic Medicines

- Availability of medicines for cardiovascular and metabolic diseases, psychiatric diseases, respiratory diseases and renal complications, among others.
- First line pharmacotherapy
- Adherence monitoring and effectiveness evaluation (biomarker control)
- Opportunity cost (substantial savings), to acquire innovative medicines

Good Governance Policy

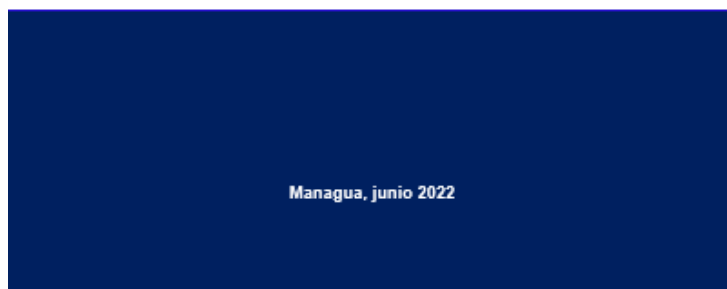

MINISTERIO DE SALUD

Normativa - 026

**LISTA BÁSICA DE MEDICAMENTOS
ESENCIALES**

Tercera edición, 2022

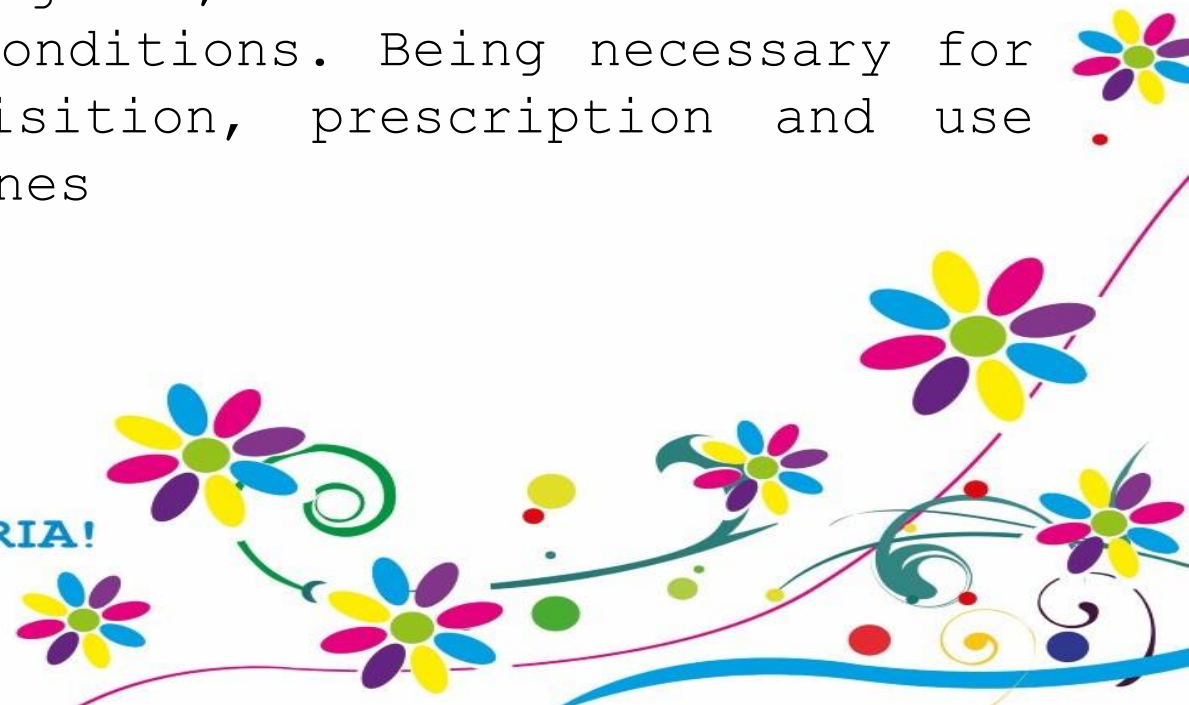

Managua, junio 2022

The countries must have a Basic List of Essential Medicines, from which a national list of medicines is derived according to the particular epidemiological, environmental and genetic conditions. Being necessary for the acquisition, prescription and use of medicines

**CRISTIANA, SOCIALISTA, SOLIDARIA!
BUEN GOBIERNO!**

Good Government Policies

1. Guarantee free and universal access to comprehensive health services.
2. Develop a national culture of prevention and protection of the health of Nicaraguans.
3. Permanently improve the quality of health services according to the expectations and needs of the population
